Attention all Secure Systems Users

INCREASED SECURITY!!!
Effective 8:00 PM on August 13, 2004, additional security measures will be implemented. Multifamily Housing applications (TRACS, REMS, and LOCCS) will only be accessible using a version of the Microsoft Internet Explorer browser that supports 128 Bit encryption and SSL3.

To determine whether your current browser supports 128 bit encryption

Log onto Secure Systems using **Microsoft Internet Explorer:**

- On the menu bar, choose File / Properties.
- The pop up window should read:

    "Connection: SSL 3.0, RC4 with 128 bit encryption (High); RSA with 1024 bit exchange"

If your current browser does not support 128 bit encryption and SSL3, you can download a browser that supports this using the following link.

 http://www.microsoft.com/ie

Please contact the Multifamily Systems Help Desk (1-800-767-7588) if you have any questions.
